Choose your rail colour

All RAL-colours are available for the rail of your choice.

**FLEXIBLE INSTALLATION, FLEXIBLE DESIGN!**

The Alpha stairlift eliminates the barrier of stairs by providing safe and easy access to other floors. Alpha has been designed for installation on stairs with a curve, an intermediate landing, or even when discreet out-of-the-way parking is required. Smooth riding, comfortable and reliable; the Alpha stairlift features a double rail system for both strength and durability.

Alpha is easy to operate by controls on the armrest and by two additional radio frequency remote controls. Through accurate photo measuring and computer-aided design, all our rails are custom bent to the exact specification of your stairs. Just choose the ideal seat and rail colours for Alpha to perfectly complement the interior design of your home and our installation will be delivered with industry-leading efficiency.
**Alpha Exclusive Line**
Elegance par excellence

- Seat, backrest and armrest are hand-crafted from noble nutwood
- 9 individual colours of high quality fabrics are available to personalise the upholstery of your stairlift
- The rail system can be painted in any RAL colour to perfectly compliment the design of your home’s interior.
- An adjustable backrest to provide extra comfort during the ride

Seat and backrest as well as the armrests are **hand-crafted from noble nutwood**

**Rounded seat edge** and high quality processed fabrics

The Alpha classic-line is a combination of clean design and proven technology.

**Comfort, convenience and safety** are the Alpha’s top priorities.

6 different seat fabrics from artificial leather are available for your choice:

- Blue
- Red
- Brown
- Green
- Beige
- Light gray (waterproof)
Main advantages of the Alpha stairlift

1. **Silent, stable and smooth riding quality** guaranteed by the slim twin tube rail system

2. **Large variety of colours and design** for the seat and the armrests

3. **Motorized footrest folding** as an option for comfortable raising and lowering of the footrest

4. **Motorised swivel seat** as an option for easy embarking and disembarking the lift.

5. Optional **wider armrests or adjustable inclination of the backrest**

6. **Convenient joystick position** for a simple handling of the lift

7. **Long range radio frequency landing controls** for trouble-free operation

8. **Stand-up seating** for very narrow staircases or limited mobility concerning back or knee flexibility

9. **LED diagnostic** for quick and understandable information regarding the status of the lift
